Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

THE JOURNAL OF INFECTIOUS DISEASES

The Journal of Infectious Diseases

Published by the Memorial Institute for Infectious Diseases

EDITED BY

LUDVIG HEKTOEN AND EDWIN O. JORDAN

IN CONJUNCTION WITH

FRANK BILLINGS F. G. NOVY

W. T. SEDGWICK

Volume 10

1912

Chicago, 1912

Composed and Printed By
The University of Chicago Press
Chicago, Illinois, U.S.A.

TABLE OF CONTENTS.

NO. 1, JANUARY, 1912.

Pyemia Due to an Anaerobic Polymorphic Bacillus, Probably Bacillus fusiformis (*with Plate 1*)
E. C. Rosenow and Ruth Tunnicliff - - - - - - 1–6

The Cell Content of Milk
H. E. Ross - - - - - - - - - - - - 7–16

Bacillus muris as the Etiological Agent of Pneumonitis in White Rats and Its Pathogenicity for Laboratory Animals
O. W. H. Mitchell - - - - - - - - - - - - 17–23

Report of Some Experiments on the Action of Staphylococcus aureus on the Klebs-Loeffler Bacillus
Lydia M. DeWitt - - - - - - - - - - - - 24–35

A Case of Generalized Infection with a Diphtheroid Organism
Lydia M. DeWitt - - - - - - - - - - - - 36–42

The Fixation of Soluble Antigen by the Tissues
R. T. Pettit and A. J. Carlson - - - - - - - - - 43–47

On the Antipneumococcal Powers of the Blood in Pneumonia
H. E. Eggers - - - - - - - - - - - - - 48–56

Some Remarks upon the Publication of Preston Kyes Entitled "Venom Hemolysis"
Professor v. Dungern and Arthur F. Coca - - - - - - 57–60

Further Observations on a Plague-like Disease of Rodents with a Preliminary Note on the Causative Agent, Bacterium tularense
George W. McCoy and Charles W. Chapin - - - - - 61–72

An Outbreak of Tonsilitis or Septic Sore Throat in Eastern Massachusetts and Its Relation to an Infected Milk Supply
C.-E. A. Winslow - - - - - - - - - - - - 73–112

On the Production of Anaphylatoxic Substances by Autolysis of Bacteria and Their Relations to Endotoxins
E. C. Rosenow - - - - - - - - - - - - 113–128

NO. 2, MARCH, 1912.

Rapid Filtration of Agar and Gelatin
W. L. Holman - - - - - - - - - - - - 129–133

Cholera
Charles Krumwiede, Jr., Josephine S. Pratt, and Marie Grund 134–141

On Plasma Cells in the Tonsils
David J. Davis - - - - - - - - - - - 142–147

Bacteriology and Pathology of the Tonsils with Especial Reference to Chronic Articular, Renal, and Cardiac Lesions
David J. Davis - - - - - - - - - - - 148–161

The Amebacidal Action of Emetin
Wm. B. Wherry - - - - - - - - - - - 162–165

Numbers and Types of Bacteria Carried by City Flies
John C. Torrey - - - - - - - - - - - 166–177

The Complement Fixation Reaction in the Diagnosis of Contagious Abortion of Cattle
W. P. Larson - - - - - - - - - - - - 178–185

Studies on Pellagra Based on Its Occurrence in 1910 in the Cook County Institutions at Dunning, Illinois
F. B. Clarke, Ralph C. Hamill, L. J. Pollock, Arthur H. Curtis, and George F. Dick - - - - - - - - - 186–199

The Bactericidal and Hemolytic Powers of "Paraffin" Plasma and of Serum
T. Addis - - - - - - - - - - - - 200–209

Observations on the Bacillus mesentericus and Allied Orgasms
O. C. Gruner and J. R. Fraser - - - - - - - - 210–225

Parturient Paresis (Milk Fever) and Eclampsia
Daniel J. Healy and Joesph H. Kastle - - - - - 226–232

The Toxic Character of the Colostrum in Parturient Paresis
Joseph H. Kastle and Daniel J. Healy - - - - - 233–243

The Internal Secretion of the Mammae as a Factor in the Onset of Labor
Daniel J. Healy and Joseph H. Kastle - - - - - 244–247

Some Remarks on the Rideal-Walker Test and on the Rideal-Walker Method
S. Rideal and E. K. Rideal - - - - - - - - 248–257

NO. 3, MAY, 1912.

The Changes in Influenzal Pneumonia
David J. Davis - - - - - - - - - - - 259–271

A Biometrical Study of Milk Streptococci
Jean Broadhurst - - - - - - - - - - - 272–284

The Classification of the Streptococci by Their Action upon Carbohydrates and Related Organic Media
C.-E. A. Winslow - - - - - - - - - - - 285–293

Experimental Therapy of Rocky Mountain Spotted Fever. The Preventive and Curative Action of a Serum for Spotted Fever, and the Inefficiency of Sodium Cacodylate as a Curative Agent for This Disease in Guinea-Pigs
P. G. Heinemann and Josiah J. Moore - - - - - 294–304

Experiments on Disinfection of Water with Ultra-Violet Light, with a Discussion of the Laws of Disinfection
Maurice R. Scharff - - - - - - - - - 305–320

A Study of the Action of Antistreptococcus Serum in Streptococcus Infections in Man
George H. Weaver and Ruth Tunnicliff - - - - - 321–331

On the Transmission of Immunity from Mother to Offspring. A Study upon Serum Hemolysins in Goats
L. W. Famulener - - - - - - - - - - 332–368

The Properties of Desiccated Rabies Virus and Its Use in Antirabic Immunization
D. L. Harris - - - - - - - - - - - 369–377

Calcium Salts and the Onset of Labor
Joseph H. Kastle and Daniel J. Healy - - - - - 378–382

On the Development of Proteolytic Ferments in the Blood during Pneumonia
George F. Dick - - - - - - - - - - 383–387

An Outbreak of Typhoid Fever in Cedar Falls, Iowa
Arthur L. Grover - - - - - - - - - 388–403

Comparative Toxin Production in Diphtheria Strains
Jane L. Berry and Louisa P. Blackburn - - - - 404–408

Non-Variability of Diphtheria Bacilli
Jane L. Berry and Edwin J. Banzhaf - - - - - 409–415

Concentration of Antistreptococcic and Antigonococcic Sera
P. G. Heinemann and L. C. Gatewood - - - - - 416–420

The Effects of Chemicals on the Division Rate of Cells with Especial Reference to Possible Precancerous Conditions (*with Plates 2, 3, 4, 5, 6, and 7*)
Gary N. Calkins, Frederick D. Bullock, and George L. Rohdenburg 421–439
